Examination of Doctoral thesis: Sherazi, S. M. Yasser, Design Space Exploration of Digital Circuits for Ultra-low Energy Dissipation

Period: 2014

Tapio Saramäki (Examiner)

Department of Signal Processing

Research group: Filterbanks

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Examination of thesis: Gama, Repson: A lignocellulolytic enzyme system for fruit waste degradation: Commercial enzyme mixture synergy, immobilisation and bioreactor design

Period: 2014

Matti Karp (Examiner)

Department of Chemistry and Bioengineering

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

External examiner (opponent) of doctoral thesis of Anup Dhita "Reliability Improvement of Sensors Used in Personal Navigation Devices"

Period: 2014

Robert Piche (Examiner)

Research group: MAT Positioning

Department of Automation Science and Engineering

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Landfill gas generation and emission at Danish waste disposal sites receiving low-organic waste

Period: 2014

Jukka Rintala (Examiner)

Department of Chemistry and Bioengineering

Description

Acting as opponent to doctoral student: Member of the Assessment Committee:

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Member of examination committee; Marika Eik's dissertation: Orientation of short steel fibres in concrete; measuring and modelling

Period: 2014

Reijo Kouhia (Examiner)

Department of Mechanical Engineering and Industrial Systems

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Member of the Examining Board for Ph.D. Thesis: del Peral Rosado, Jose Antonio : Evaluation of the LTE Positioning Capabilities in Realistic Navigation Channels

Period: 2014

Elena-Simona Lohan (Examiner)

Department of Electronics and Communications Engineering

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Member of the Examining Board for Ph.D. Thesis: Gupta, Smrati : Contributions on Networking Techniques for Wireless Relay Channels

Period: 2014

Elena-Simona Lohan (Examiner)

Department of Electronics and Communications Engineering

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Opponent and reviewer: Weronika, Pawelec: New families of highly efficient, halogen-free flame retardants for polypropylene (PP)

Period: 2014

Jyrki Vuorinen (Examiner)

Department of Materials Science

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Opponent for PhD thesis: Montalbanco, Francesco: Boronic acids as partners in multicomponent reactions

Period: 2014

Nuno Rafael Candeias (Examiner)

Department of Chemistry and Bioengineering

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Opponent for PhD thesis: Paterna, Roberta: 3-Hydroxy-Quinolin-2(1H)-ones, a useful scaffold: Synthesis and biological evaluation

Period: 13 Apr 2017

Nuno Rafael Candeias (Examiner)

Chemistry and Bioengineering

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Opponent of dissertation: Bou Saleh, Abdallah : Inband Relaying in Long Term Evolution-Advanced Networks

Period: 4 Apr 2014

Jukka Lempiäinen (Examiner)

Department of Electronics and Communications Engineering

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Opponent of dissertation: Niazi, Moazzam Fareed: A Model-Based Development and Verification Framework for Distributed System-on-Chip Architecture

Period: 2014

Jari Nurmi (Examiner)

Department of Electronics and Communications Engineering

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Opponent of doctoral thesis: Majava, Jukka: Product Development - Drivers, stakeholders, and customer representation during early development

Period: 2014

Miia Martinsuo (Examiner)

Department of Industrial Management

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Opponent of doctoral thesis: Bartl, Eduard: Constrained solutions of fuzzy relational equations

Period: 2013

Esko Turunen (Examiner)

Department of Mathematics

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Opponent of Doctoral thesis: Cemil Demir: Single-Channel Speech-Music Separation for Robust ASR with Mixture of NMF Models

Period: 2014

Tuomas Virtanen (Examiner)

Research group: Audio research group

Department of Signal Processing

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Opponent of doctoral thesis: Chaudhary, Shilpi: Modification of Oxide Surfaces with Functional Organic Molecules, Nanoparticles, and Hetero-Oxide Layers

Period: 9 Jun 2015

Mika Valden (Examiner)

Optoelectronics Research Centre

Research group: Surface Science

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Opponent of Doctoral thesis: D'Angelo, Stefano: Virtual Analog Modeling of Nonlinear Musical Circuits

Period: 21 Nov 2014

Tapio Saramäki (Examiner)

Department of Signal Processing

Research group: Filterbanks

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Opponent of doctoral thesis: Deleze, Frederic: Essays in Quantitative Analysis of the Effects of Market Imperfections on Asset Returns"

Period: 2014

Juho Kanninen (Examiner)

Department of Industrial Management

Research group: Financial Engineering

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Opponent of Doctoral thesis: Huang, Xiaohua, Methods for facial expression recognition with applications in challenging situations

Period: 11 Dec 2014

Joni Kämäräinen (Examiner)

Department of Signal Processing

Research group: Vision

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Opponent of doctoral thesis: Joost, Urmas: Impurity and preparation dependent properties of titania thin films

Period: 2014

Mika Valden (Examiner)

Research group: Surface Science

Optoelectronics Research Centre

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Opponent of Doctoral thesis: Lindh-Knuutila, Tiina; Computational Modeling and Simulation of language and meaning: Similarity-Based Approaches

Period: 9 May 2014

Ari Visa (Examiner)

Research group: MMDM

Department of Signal Processing

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Opponent of doctoral thesis: Peltola, Petteri: Analysis and modelling of chemical looping combustion process with and without oxygen uncoupling

Period: 2014

Risto Raiko (Examiner)

Department of Chemistry and Bioengineering

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Opponent of doctoral thesis: Räbinä, Jukka: On numerical solution of the Maxwell equations by discrete exterior calculus

Period: 2014

Lauri Kettunen (Examiner)

Department of Electrical Engineering

Description

Jyväskylän yliopisto, Informaatioteknologian tiedekunta

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Opponent of doctoral thesis: Rönkkönen, Ella Hanne: Catalytic clean-up of biomass derived gasification gas with zirconia based catalysts

Period: 2014

Jukka Konttinen (Examiner)

Department of Chemistry and Bioengineering

Description

Aalto University, School of Chemical Technology

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Opponent of doctoral thesis: Zaugg, Christian: Novel Concepts in Modelocked VECSELs

Period: 2014

Mircea Guina (Examiner)

Optoelectronics Research Centre

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Opponent of Doctoral thesis: Zhang, Youming: Biometric Verification of a Subject Based on Data Mining of Saccade Eye Movement Signals

Period: 1 Aug 2014

Alpo Värri (Examiner)

Department of Signal Processing

Research group: Sleep and Sensory Signal Analysis Group-SSSAG

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Opponent: Theorin, Alfred: A sequential control language for industrial automation

Period: 2014

Jose Martinez Lastra (Examiner)

Department of Mechanical Engineering and Industrial Systems

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Opponent to doctoral thesis: Khanom, Sukanya: On Enriching Requirements Engineering Work Using Icons

Period: 2014

Hannu Jaakkola (Examiner)

Pori Department

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Pre-examination of a doctoral thesis: Korolyuk, Anna: Collective excitations in ultracold Fermi gases

Period: 2014

Esa Räsänen (Examiner)

Research area: Computational Physics

Research group: Quantum Control and Dynamics

Department of Physics

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Pre-examination of dissertation: Hiltunen, Kimmo: The Performance of Dense and Heterogeneous LTE Network Deployments within an Urban Environment

Period: 2014

Jukka Lempiäinen (Examiner)

Department of Electronics and Communications Engineering

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Pre-examination of Doctoral Dissertation/Esitarkastaja: FM John Backman; "Optical properties of atmospheric aerosols using filter-based absorption photometers"

Period: 2014

Jorma Keskinen (Examiner)

Research area: Aerosol Physics

Department of Physics

Description

Helsingin yliopisto, Matemaattis-luonnontieteellinen tiedekunta

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Pre-examination of Doctoral thesis: Adhikari, Raj: Probabilistic Modelling of Multiresolution Biological Data

Period: 5 Aug 2014

Olli Yli-Harja (Examiner)

Department of Signal Processing

Research group: Computational Systems Biology

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Pre-examination of doctoral thesis: Anin, Dmytro: Experimental study of core shell properties of atom using electron spectroscopy

Period: 2014

Mika Hirsimäki (Examiner)

Optoelectronics Research Centre

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Pre-examination of doctoral thesis: Ashraf, Adnan: Cost-Efficient Virtual Machine Management. Provisioning, Admission Control, and Consolidation

Period: 2014

Kari Systä (Examiner)

Department of Pervasive Computing

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Pre-examination of doctoral thesis: Bastidas Rodriguez, Juan David: Modeling and Diagnostic of Photovoltaic Arrays

Period: 2014

Seppo Valkealahti (Examiner)

Department of Electrical Engineering

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Pre-examination of doctoral thesis: Bordallo Lopez, Miguel: Designing for Energy-Efficient Vision-Based Interactivity on Mobile Devices

Period: 2014

Tommi Mikkonen (Examiner)

Department of Pervasive Computing

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Pre-examination of Doctoral thesis: Faisal, Ali: Retrieval of Gene expression measurements with probabilistic models

Period: 2014

Jari-Pekka Antero Flinck (Examiner)

Department of Signal Processing

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Pre-examination of doctoral thesis: Gaetano La Russa: Towards an understanding of humanoid robots in eLC applications

Period: 2014

Hannu Jaakkola (Examiner)

Pori Department

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Pre-examination of doctoral thesis: Garcia-Alonso, Jose: Arquitecturas Multicapa: Acercando el Diseno a la Implementacion

Period: 2014

Tommi Mikkonen (Examiner)

Department of Pervasive Computing

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Pre-examination of doctoral thesis: Hachicha, Walid: Towards efficient methods for stereo image processing, coding and quality assessment

Period: 2014

Moncef Gabbouj (Examiner)

Department of Signal Processing

Research group: Video

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Pre-examination of doctoral thesis: Hänninen, Kai: Rapid productisation process: Managing an unexpected product increment

Period: 2014

Saku Mäkinen (Examiner)

Department of Industrial Management

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Pre-examination of doctoral thesis: Havukainen, Jouni: Biogas production in regional integrated biodegradable waste treatment - Possibilities for improving energy performance and reducing GHG emissions

Period: 2014

Jukka Rintala (Examiner)

Department of Chemistry and Bioengineering

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Pre-examination of doctoral thesis: Hoseini, Afshin Abbasi: Experimental study of turbulent flow with dispersed rod-like particles through optical measurements

Period: 2014

Pentti Saarenrinne (Examiner)

Department of Mechanical Engineering and Industrial Systems

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Pre-examination of doctoral thesis: Huhtala, Merja: PDM System Functions and Utilizations Analysis to Improve the Efficiency of Sheet Metal Product Design and Manufacturing

Period: 2014

Antti Pulkkinen (Examiner)

Department of Mechanical Engineering and Industrial Systems

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Pre-examination of Doctoral thesis: Kavitha. C. T., Development of fusion algorithms for multimodal brain images

Period: 2014

Moncef Gabbouj (Examiner)

Department of Signal Processing

Research group: Video

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Pre-examination of doctoral thesis: König, Johan: Analyzing substation automation system reliability using probabilistic relational models and enterprise architecture

Period: 2014

Pertti Järventausta (Examiner)

Department of Electrical Engineering

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Pre-examination of doctoral thesis: Leino, Hannu: Extended hydrogen photo-production by nitrogen-fixing cyanobacteria
Period: 2014

Matti Karp (Examiner)

Department of Chemistry and Bioengineering

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Pre-examination of doctoral thesis: Lignell, Hanna: Photochemical studies of atmospherically relevant species in multiple phases

Period: 2013

Helge Lemmetyinen (Examiner)

Department of Chemistry and Bioengineering

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Pre-examination of doctoral thesis: Maarit Tihinen: Measurement-based management of global software development projects

Period: 2014

Hannu Jaakkola (Examiner)

Pori Department

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Pre-examination of doctoral thesis: Phaphoom, Nattakarn: Enterprise Cloud Adoption: Benefits, Barriers and Implementation Strategies

Period: 2014

Kari Systä (Examiner)

Department of Pervasive Computing

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Pre-examination of doctoral thesis: Purhonen, Mikko: Minimizing Circulating Current in Parallel-Connected Photovoltaic Inverters

Period: 2014

Teuvo Suntio (Examiner)

Department of Electrical Engineering

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Pre-examination of doctoral thesis: Puustinen, Jarkko: Phase structure and surface morphology effects on the optical properties of nanocrystalline PZT thin films

Period: 2014

Period: 2014

Joni Kämäräinen (Examiner)

Department of Signal Processing

Research group: Vision

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Pre-examination of doctoral thesis: Tokola, Henri: Online optimisation models in short-term production planning

Period: 2014

Jose Martinez Lastra (Examiner)

Department of Mechanical Engineering and Industrial Systems

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Pre-examination of doctoral thesis: Varnfield, Marlien: Evaluation of information and communication technology platforms to improve self-management of chronic disease

Period: 2014

Ilkka Korhonen (Examiner)

Department of Signal Processing

Research group: Personal Health Informatics-PHI

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Pre-examination of doctoral thesis: Yang, Bo: Towards Optimal Application Mapping for Energy-Efficient Many-Core Platforms

Period: 2013

Timo Hämäläinen (Examiner)

Department of Pervasive Computing

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Pre-examination of the dissertation manuscript and acting as opponent of the dissertation / Väitöskirjan esitarkastaja ja vastaväittäjä: Pekka Räisänen: Fire Risk and Its Management in Cruise Vessel Construction Projects

Period: 2014

Kalle Kähkönen (Examiner)

Department of Civil Engineering

Activity: Examination › Pre-examination of dissertation or acting as opponent to doctoral students

Pre-examiner: FM Pauli Parkkinen, Computational study of proton ordering in ice and ice-like systems

Period: 2014

Tapio Rantala (Examiner)

Research area: Computational Physics

Research group: Electronic Structure Theory

Department of Physics

Description

Helsingin yliopisto, Matemaattis-luonnontieteellinen tiedekunta
