##### **Profile information**

I have a bachelor's degree in Industrial Engineering and a master's degree in Business Administration both from Sharif University of Technology in Iran. After studying in academia, I decided to move to management consulting. For nearly four years, I worked for several commercial and non-profit organizations. Then, I returned to academia to pursue a research career. I completed my PhD program at the Università della Svizzera italiana (University of Lugano) in Switzerland. Then, I visited Hanken School of Economics (HUMLOG institute) by a postdoc.mobility fellowship granted by Swiss National

Science Foundation. In 2017, I joined Tampere University of Technology as an assistant professor in supply chain management (the second term).

My working and research interest relates to supply chain management in private and public sectors including NGOs and Higher Education Institutes, humanitarian operations and crisis management, and operations in emerging markets.
