A method for analyzing practicing managers' perception on the disruptive nature of digitalization in machine-building industry

Research output: Scientific - peer-review › Conference contribution

Mechanisms of disruptive technological change: Case studies in transformation of traditional industries

Research output: Scientific - peer-review › Conference contribution

Integrating micro-level interactions with social network analysis in tie strength research: the edge-centered approach

Research output: Scientific - peer-review › Conference contribution

Using crowdfunding for extracting feedback: literature review

Research output: Scientific - peer-review › Conference contribution

Ecosystem approach on medical game development: The relevant actors, value propositions and innovation barriers

Research output: Scientific - peer-review › Conference contribution

Problems of enterprise architecture adoption in the public sector: root causes and some solutions

Research output: Scientific - peer-review › Chapter

A bibliometric study on authorship trends and research themes in knowledge management literature

Research output: Scientific - peer-review › Conference contribution

Explaining the challenges in ERP development networks with triggers, root causes, and consequences

Research output: Scientific - peer-review › Article

Challenges of collecting B2B customer insight from multiple channels

Research output: Scientific - peer-review › Conference contribution

Visualizing the Geography of Platform Boundary Resources: The Case of the Global API Ecosystem

Research output: Scientific - peer-review › Conference contribution

Analysing the role of crowdfunding in entrepreneurial ecosystems: A social media event study of two competing product launches

Processing Data for Visual Network Analysis
Research output: Scientific › Chapter

Rakennetun ympäristön sähköinen asiointipalvelu kuntien tiedolla johtamisen vauhdittajana
Research output: Professional › Article

The nexus between social media behaviour, negative consumer emotions and brand disloyalty
Research output: Scientific › Paper, poster or abstract

Perceived risks in social media use – a longitudinal study among university students.
Research output: Scientific › Conference contribution

Can e-government solutions enhance the work in municipalities?: empirical evidence from case lupapiste
Research output: Scientific › Conference contribution

Identifying weak ties from publicly available social media data in an event
Research output: Scientific › Conference contribution

The 5C categorization of social media tools
Research output: Scientific › Conference contribution

Sosiaalinen media brändi- ja asiakastiidan lähteenä
Research output: Scientific › Conference contribution

Developing a conceptual model for the relationship between social media behavior, negative consumer emotions and brand disloyalty
Research output: Scientific › Conference contribution

Blogging as a virtual co-learning environment in the international course context
Research output: Scientific › Conference contribution
Electromagnetic 3D subsurface imaging with source sparsity for a synthetic object
Pursiainen, S. & Kaasalainen, M. 4 Nov 2015 In : Inverse Problems. 31, 12, 17 p., 125004
Research output: Scientific - peer-review › Article

A managerial view of the knowledge flows of a health-care system
Research output: Scientific - peer-review › Article

A General Definition of the O-notation for Algorithm Analysis
Research output: Scientific - peer-review › Article

Exploring co-learning behavior of conference participants with visual network analysis of Twitter data
Research output: Scientific - peer-review › Article

VLT/SPHERE- and ALMA-based shape reconstruction of asteroid (3) Juno
Research output: Scientific - peer-review › Article

The Role of Customer Experience in Value Creation in Business-to-Business Context
Research output: Professional › Conference contribution

Knowledge Management operationalization – how it differs in large enterprises and SMEs in Finland
Research output: Professional › Conference contribution

Stop It, and Be Stubborn!
Research output: Scientific - peer-review › Conference contribution

Understanding business ecosystem dynamics: A data-driven approach
Research output: Scientific - peer-review › Article

SmartWoW – constructing a tool for knowledge work performance analysis
Research output: Scientific - peer-review › Article

ADAM: A general method for using various data types in asteroid reconstruction
Viikinkoski, M., Kaasalainen, M. & Durech, J. 1 Apr 2015 In : Astronomy and Astrophysics. 576, 11 p., A8
Research output: Scientific - peer-review › Article

'They do not get along without us and we do not get along without them...': Uncertainty in information system development
Research output: Scientific - peer-review › Conference contribution
"New Ways of Working" as a tool for improving the performance of a knowledge-intensive company
Research output: Scientific - peer-review › Article

Organisational knowledge flows and structural change the case of dispersed education organizations
Research output: Scientific - peer-review › Article

Ostinato: The Exploration-Automation Cycle of User-Centric, Process-Automated Data-Driven Visual Network Analytics
Research output: Scientific - peer-review › Chapter

Paradoxes in the development of a business critical information system
Research output: Professional › Conference contribution

Paradoxes of change management in information system development
Research output: Scientific - peer-review › Conference contribution

Performance management practices in construction business - a service recovery perspective
Research output: Scientific › Conference contribution

Quality measures for improving technology trees
Research output: Scientific › Article

Relational Capital for Shared Vision in Innovation Ecosystems
Research output: Scientific › Article

Riding for a fall in outsourced ISD: Knowledge transfer challenges between the onshore vendor and the offshored unit
Research output: Scientific › Conference contribution

Robust Regulation Theory for Transfer Functions With a Coprime Factorization
Research output: Scientific - peer-review › Conference contribution

Social Approach for Context Analysis: Modelling and Predicting Social Network Evolution using Homophily
Research output: Scientific - peer-review › Conference contribution
Experiences from content and language integrated learning in engineering education
Research output: Scientific - peer-review › Conference contribution

Information systems and management in media industries a first problem evaluation from a business perspective
Research output: Scientific - peer-review › Conference contribution

Insights for orchestrating innovation ecosystems: the case of EIT ICT Labs and data-driven network visualisations
Research output: Scientific - peer-review › Article

Julkishallinto ja tietojohtamisen syistä ja seppiä
Research output: Professional › Article

Knowledge perspective to public management - managing public service provision with knowledge
Research output: Scientific - peer-review › Conference contribution

Knowledge Transfer Challenges in ERP Development Networks
Research output: Scientific - peer-review › Conference contribution

Kävelyn ja pyöräilyn seuranta: Ohjeita mittariston kokoamiseen
Research output: Professional › Commissioned report

Methods for Analyzing the Impacts of Workplace Changes on Knowledge Work
Research output: Scientific - peer-review › Conference contribution

Negative Emotions and Knowledge Work Performance
Research output: Scientific - peer-review › Conference contribution

Networks of Pain in ERP Development
Research output: Scientific - peer-review › Conference contribution
Preparing for Cyber Threats with Information Security Policies
Research output: Scientific - peer-review › Anthology

Students’ participation in a social media enhanced learning environment
(IEEE Global Engineering Education Conference)
Research output: Scientific - peer-review › Conference contribution

Students’ Participation in a Social Media Enhanced Learning Environment
Research output: Scientific - peer-review › Article

Teollisuudelle etua sosialisesta mediasta
Research output: Professional › Article

Tietojohtaminen
Research output: Professional › Book

Virtuaalinen konelaboratorio ja semanttinen mallinnus konejärjestelmän suunnittelun tukena, Loppuraportti, Semogen II -hanke
Research output: Professional › Commissioned report

Visualizations of user data in a social media enhanced web-based environment in higher education
(IEEE Global Engineering Education Conference)
Research output: Scientific - peer-review › Conference contribution
