

Customer-oriented approach in cadastral procedures – Case study from Finland

Urban housing density and infrastructure costs

Improved water services cooperation through clarification of rules and roles

Building university-industry co-innovation networks in transnational innovation ecosystems
Towards a transdisciplinary approach of integrating social sciences and artificial intelligence

The potential of biomethane in replacing fossil fuels in heavy transport-a case study on Finland

Built environment determinants of pedestrians' and bicyclists' route choices on commute trips
Applying a new grid-based method for measuring the built environment along the route

Technology valuation method for supporting knowledge management in technology decisions to gain sustainability

A comparative analysis of global datasets and initiatives for urban health and sustainability

Radon, fungal spores and MVOCs reduction in crawl space house
A case study and crawl space development by hygrothermal modelling

Beyond the City Limits

Creativity

Translated title of the contribution: : Creativity

Examining the rhythms of 'urban elements' on walking and driving routes in the city

Geology

Translated title of the contribution: : Geology

Identity

Translated title of the contribution: : Identity

Road safety comparisons with international data on seriously injured

Landowners' willingness to promote bioenergy production on wasteland – future impact on land use of cutaway peatlands

Extending the life of virtual heritage
Reuse of TLS point clouds in synthetic stereoscopic spherical images

Advances in determining Δu and S_u for limit equilibrium analyses

Determination of remoulding energy of sensitive clays

Effects of sample disturbance in the determination of soil parameters for advanced finite element modelling of sensitive clays

Mayrit

Un paisaje de agua?

Translated title of the contribution: : Mayrit: A water landscape?

Problems related to field vane testing in soft soil conditions and improved reliability of measurements using an innovative field vane device

Mapping indoor overheating and air pollution risk modification across Great Britain

A modelling study

Pre-use phase LCA of a multi-story residential building

Can greenhouse gas emissions be used as a more general environmental performance indicator?

Clashing coalitions

A discourse analysis of an artificial groundwater recharge project in Finland

Imágenes 2.5D basadas en información de reflectancia para la interpretación morfológica del patrimonio arquitectónico

Translated title of the contribution: : 2.5D images based on reflectance information for the interpretation of architectural heritage

Mapping the effects of urban heat island, housing, and age on excess heat-related mortality in London

Airtightness of residential buildings in Finland

Assessing uncertainty in housing stock infiltration rates and associated heat loss

English and UK case studies

Indicators for self-organization potential in urban context

The effect of ground leases on house prices in Helsinki

Growth of Urban Peripheries with Reference to Inconsistent Spatial Planning Policies: South-east Amman as case study

Groundwater as a source of conflict and cooperation

Towards creating mutual gains in a Finnish water supply project

Institutional entrepreneurship, power, and knowledge in innovation systems

Institutionalization of regenerative medicine in Tampere, Finland

Arbitrary Land Use Policy in Jordan between Legal Brand and Property Control

The impact of occupancy patterns, occupant-controlled ventilation and shading on indoor overheating risk in domestic environments

The relative importance of input weather data for indoor overheating risk assessment in dwellings

Using probabilistic sampling-based sensitivity analyses for indoor air quality modelling

Water supply and sanitation services in Finland before World War 2

Attitude-behaviour gap in energy issues
Case study of three different Finnish residential areas

Boundary Interaction in Emerging Scenes
Two Participatory Planning Cases from Finland

Consumer panel on the readiness of finns to behave in a more pro-environmental manner

Parkour
Creating loose spaces?

Do matters of concern matter? bringing issues back to participation

Luhtaorvokki ja luonnon geopolitiikka
Translated title of the contribution: : Viola uliginosa and the geopolitics of nature

Making sense of the social
Human-nonhuman constellations and the wicked road to sustainability

Policy learning and the 'cluster-flavoured innovation policy' in Finland

Local or digital buzz, global or national pipelines
Patterns of knowledge sourcing in intelligent machinery and digital content services in Finland

Briefing
Initial findings from the urba project

Institutional entrepreneurship for knowledge regions
In search of a fresh set of questions for regional innovation studies

Tiedon synty kollektiivisessa lintujen havainnoinnissa
Lajiluettelon, paikan ja tietamisen vuorovaikutus
